Photo of 'Flying Swede's' Actual Flight Phoned to Hub

"SPIRIT OF ST. LOUIS" JUST AS IT CLEARED THE CROFTS
graph Capt. Lindbergh's flight. It shows the plane of Captain Lindbergh in the air after a thrilling takeoff in which he just escaped in suspense and cheered the daring pilot as the ship rose.

PASSES NEAR HUB ON WAY TO PARIS

Roaring through mist and fog, then rain and finally out of the murk into bright sunlight and ideal flying atmosphere, Captain Charles A. Lindbergh, the "Flying Fool," soared over Massachusetts today, and at 3 p. m. was at Mulgrave, N. S., 725 miles on his way to Paris from New York.

Seven hours and 8 minutes had elapsed from the time of his takeoff at Roosevelt Field when the report came from Mulgrave, 155 miles north of Halifax, that the shimmering, silver-gray monoplane was skimming over the little town, headed for Cape Breton. He passed over Milford, N. S., at 1:50. This is 30 miles from Halifax. The intrepid 25-year-old lone Viking of the air then had a flat 3,000 miles more to cover before reaching Paris.

THE HOPE of the farmers is in better machinery, and more intelligent use of it. It is not alone the selling price of a bushel of wheat that counts, but the amount of farm time and labor used to produce the bushel. A man working with pick and shovel could not afford to dig up and sort out gold-bearing gravel if it paid him five dollars a ton average. But plant dredging machines in the Sacramento Valley are making millions working gravel that pays less than twenty cents a ton.

Minister Indorses Ruth Snyder's Life Story

BIG WARNING SERMON IN HER ATONEMENT

THE American today presents a leading clergyman's view of Ruth Snyder's "My Own True Life Story," which will be published in this newspaper, beginning next Monday. Here is Rev. Mr. Sawyer's statement:

AS FINE a chapter as can be found in any library is that by the late Henry Drummond on "The Evolution of the Mother" in his book, "The Ascent of Man." In that chapter Drummond pointed out that the great purpose of organic Nature had been to make mothers, and that through the four great virtues of the human mother, patience, sympathy, carefulness and tenderness, had come all the higher traits of the human being. This was scientific affirmation of the truth long taught by religion. To transform the jungle woman to the mother took a half million years, says science.

I think Ruth Snyder's child is less than ten years of age—less than ten years ago Ruth Snyder gave birth to her innocent babe, passed through the test of that holy sacrifice which makes a mother—and in less than ten years of the life of pleasure, drink and sex she has undone all that it took Nature a half million years to do.

From the patience, care, sympathy and tenderness which makes motherhood she has slipped back into the hard, cruel, animal woman of the jungle.

No crime in the history of America has so stirred the people with mingled horror and indignation as the cold, merciless crime of Ruth Snyder.

There is but one statement this wretched woman can make to society, that is to faithfully tell the warning story of her degeneracy through these past few years.

That story possesses interest for the scientist who wants to know how the work of 500,000 years can be undone in ten; it is of vital interest to the sociologist, who wants to know what horrible thing is this modern, gay city life, which can exert such terrible pressure upon human nature; this story will be full of thrilling warning to the American people.

If Ruth Snyder will tell that story truthfully and without shielding anyone, she will make some small atonement to society for her crime, and the newspapers, which can put that story of terrible warning before the greatest number of American readers, will be doing a great public service. The press as well as the pulpit can preach a great warning sermon in a case like this.

Rev. D. Sawyer.

BOSTON AMERICAN

BOSTON, FRIDAY, MAY 20, 1927

SHOTS FIRED AT NORTH DAKOTA GOVERNOR

Bismarck, N. D., May 20 (A.P.)—A bullet fired through a window of the executive mansion narrowly missed striking Governor A. C. Beebe, it was revealed at his home today.

Police say they have no clue as to who fired the shot. It is the second time within three weeks that bullets have been fired into the executive mansion. It was revealed that the governor had just returned from his office at the Capitol and was standing directly in front of a large plate glass window, looking into the street, when a bullet ploughed through it.

Splinters of glass struck the Governor on the hand, he said, and his first thought was that the chamberlains in the room had broken, but investigations disclosed a round hole about an inch in diameter in the window pane. A lead bullet, somewhat flattened, was found under the executive's armchair.

About three weeks ago a bullet shattered a window in the same room. It was discovered when the Governor's family returned home and found broken glass.

Several times recently persons have been seen peering through the windows, it was said, and a few weeks ago the janitor found a middle-aged man peering in. He had only wanted to see the Governor, he said. Friends of the Governor could ascribe no reason for an attack.

DROP IN TEMPERATURE FOR BOSTON TONIGHT
Temperatures generally under 50 above in the Great Lakes region, centre of a high barometric pressure, will be reflected here tonight in a slight drop of the mercury, according to the local Weather Man.

The storm area swirling around in New England since for 10 days, is showing signs towards the Atlantic and fair weather is expected to follow.

GENERAL NEWS SECTION

BOSTON, FRIDAY, MAY 20, 1927

W. GIRL'S SUIT OVER SMOKE NEARS END

New City, N. J., May 20 (A.P.)—The Helen V. Clark's suit for \$50,000 against Matthew Pechel, supervising principal of Secaucus schools, which she alleges he defamed her character, was announced a closed (Common Pleas Court today.

Ms. Clark was dismissed on the case that she smoked cigarettes before her pupils. She came from New Hampshire and got a job as a teacher in Secaucus on a temporary elementary certificate.

Then the probationary period expired, Pechel and Alvin H. Tilden, county superintendent, recommended to the State Board of Education that Miss Clark not be granted a permanent certificate.

The State Board followed the recommendation.

Pechel forced out Miss Clark but in the meantime she had won the heart of education to her side and the board gave her the job of secretary to Pechel.

Hearing on a writ of mandamus return by Ms. Clark to compel the State Board to give her a permanent certificate is pending.

Counsel for Pechel called Superior Court Judge to read a letter he had written to the State Board giving the following reasons for not approving Miss Clark's request for a permanent certificate:

School children had seen her smoking cigarettes in an automobile. She had been intoxicated several times, and once told her husband: "I was 'rammed' last night and won't be sober today."

She owed \$500 tuition to the New Hampshire State Normal School, which had, as a result, refused to grant her a certificate of graduation.

Judge admitted he based the letter solely on reports made to him by Pechel.

GET WOMAN AND \$100,000 GEMS

St. Albans, Vt., May 20 (U.S.)—Mrs. John Kantor, Hotel Delmonico, Paris, was reported under arrest in Detroit today with more than \$100,000 worth of smuggled diamonds in her possession.

The seizure was reported to Customs Collector Harry C. Whitcomb by Deputy Collector Addison H. King, in charge of the Montreal office, which is in the local customs district.

Mrs. Kantor had been shadowed in Montreal for three months and was traced to Detroit by Deputy H. Gardner. Upon her arrival at St. Albans, N. H., from Montreal, she purchased a railroad ticket to Los Angeles.

Virginia Rice is one of the hundred society girls participating in the "Review of Dances" which is being presented this afternoon and tonight at the Repertory theatre.

'FLYING FOOL'S' PLANE HAS NO RADIO

New York, May 20 (A.P.)—The Ryan monoplane in which Captain Charles A. Lindbergh, "The Flying Fool," is on his way to Paris is of metal with wings of wood and weighs 2,600 pounds.

The Spirit of St. Louis is a single seated plane with an enclosed cabin, wherein the pilot peers through a periscope and steers his course from a set of elaborately mounted instruments on a board before him. The main has a wing spread of 46 feet and is 24 feet long.

The huge motor at the nose of the plane obscures front vision and the glassed-in Wright cylinder cabin permits side view only through windows. The craft carries no radio or gear for landing at sea, but is equipped with a pneumatic raft. Its gasoline capacity is more than 425 gallons and its maximum speed is 155 miles per hour. With extra gasoline tanks and the instrument board the cost of the craft is estimated at \$25,000.

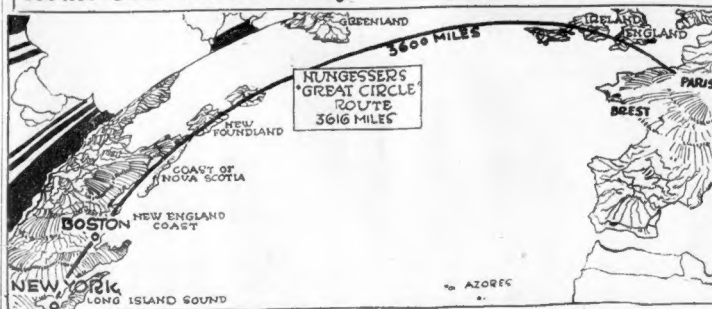

RIVALS DELAY START IN HOP OVER OCEAN

New York, May 20 (A.P.)—Charles Lindbergh, who had waited a week at Garden City for the weather to clear sufficiently to give him what he considered a chance to make the non-stop flight to Paris, left behind two planes being groomed for New York to Paris flights when he dashed away today.

The "America," a six-seater and will probably not be able to start this week. Rodman Wanamaker and his assistants taking this flight have complained that the proposed trip is so difficult and will not be made a race by the "America."

The Bellanca monoplane, "Columbia," is said to be ready to go if the weather improves on a crew and success in a Brooklyn court action scheduled for today in which Lloyd V. Bertaud, selected with Clarence T. Chamberlin, to pilot the plane, seeks to restrain the Columbia Aircraft Corporation and Charles A. Levine from sending the plane to Paris with another navigator in Bertaud's seat.

Route Over Which 'Lucky' Speeds Towards Paris

Though it had been announced that he would follow the southern steamship lane in his flight to Paris, latest reports indicate that Capt. Charles A. Lindbergh after taking off from Roosevelt Field today headed northeast to follow the Nungesser "circle" over New England, Nova Scotia and Newfoundland. This was confirmed when his plane was sighted off Halifax on Massachusetts Shore and later off Minor's Light.

"CERTAINLY HE'LL GET THERE," DECLARES BYRD

New York, May 20 (A.P.)—Commander Richard E. Byrd of the plane "America" thinks Captain Lindbergh will land in Paris on his ocean flight in the next 16 to 40 hours.

"Certainly, I think he will get there. I consider the chances 4 to 1 in his favor," said Byrd. "He has the gas, the weather outlook is good and, of course, he has the courage and ability."

The commander added that he would not think of taking the air himself until Lindbergh has had his opportunity to reach the goal both weeks, although with different purposes.

Land stations have been asked to keep a lookout for the plane and to report if they sight him. Wireless operators of ships are being asked, if the sea, the air, to report the weather conditions at the time and to give their ship's position.

Good jobs do not wait the street—they are listed in the classified ads. See classifications 38 and 39.

OLD HOME TOWN IS PROUD AS 'LUCKY' FLIES

Little Falls, Minn., May 20 (A.P.)—Captain Lindbergh's "old home town" faced East today for word of his progress toward Paris.

Hardly had the young flier taken the air before word reached here in an Associated Press dispatch.

On the street the early risers heard it. In the homes of sleeper made telephone buzzed, and soon the entire populace knew that "The Kid" was off for Paris.

"I remember the youth as 'just a kid' in grade and high school here."

They remembered him last when he came here in 1924, after the death of his father, the late Congressman Charles A. Lindbergh of Little Falls, when he flew over the old family farmstead to scatter his father's ashes on the latter had wished.

A beautiful boy and rather reserved as a man, comparatively few persons here knew Lindbergh intimately, though he was few over the old family farmstead to scatter his father's ashes on the latter had wished.

But today he was the intimate of all Little Falls.

French Aviation Expert Hopes Lindbergh Will Win

Paris, May 20 (A.P.)—Thoppe Lindbergh succeeds. Henri Pate, vice-president of the French Chamber and member of the Aviation Budget, told the Associated Press today.

"I will have before my mind the daring attempt of Nungesser and Gode, and, with all my heart I wish the American may triumph in such a flight."

News of the takeoff was communicated to the Associated Press to the Secretariat of Aeronautics, here and many expressions of hope for the aviator's success.

The head of the department said all arrangements had been completed for meeting the plane at Le Bourget Field. The grounds are to be lighted if the plane arrives at night and stringent police measures have been taken to prevent any accident in landing.

"Wonderful Take-Off!" Says Chamberlin, "Lucky's" Rival

Roosevelt Field, N. Y., May 20 (A.P.)—Charles T. Chamberlin, pilot of the Bellanca plane that, but for a malfunction, might have been racing Charles A. Lindbergh to Paris today, expressed the highest admiration for the manner in which the youthful rival took to the air.

"Plane Just Like Death Chamber," Says Lindbergh

Roosevelt Field, N. Y., May 20 (U.S.N.S.)—"Lucky" Lindbergh has no sense of false security in his Ryan monoplane as he speeds toward Paris, 3,600 miles away. Just before taking off he shook hands with friends and said goodbye.

"When I get into the plane," he told them, "it will be like getting into a death chamber. If I get out in Paris it will be like a pardon from the Governor."

A few minutes later he was on his perilous journey.

Halifax Man Says 'Lucky's' Plane Was Going 'Perfectly'

Grand Surveillant of Halifax, who has followed aviation since the days of Glenn Curtiss and once built a machine, said of Lindbergh's passage over that town.

"I noticed those wide wing struts particularly. The plane was so low I gave me every opportunity to see how it is built. His motor was hitting on all cylinders and I should say he was flying perfectly."

Sturges is qualified to speak on airplanes because of his knowledge of them.

Lindbergh Seen in Ocean Dash Over N. S. Villages

Millard, N. S., May 20 (A.P.)—Captain Charles Lindbergh flew over here at 2:20 o'clock this afternoon. Atlantic daylight 1:50 Eastern daylight time.

Yarmouth, N. S., May 20 (U.S.N.S.)—A monoplane believed to be the "Spirit of St. Louis," flown by Captain Lindbergh, was sighted 15 miles north of New Tuson, this afternoon, according to wireless dispatch. The plane was flying low in a northeasterly direction at a high rate of speed.

FLIER'S DARING
GRIPS ALL U. S.
AND PARIS

Paris, May 20 (A.P.)—Charles A. Lindbergh's hop to Paris is characterized by the afternoon Paris papers as "a most audacious attempt." The fact that he is navigating by compass, sitting in an enclosed cockpit, evokes astonishment, and all the commentators express admiration for his courage.

Washington, May 20 (A.P.)—Charles A. Lindbergh's hop-off for his great transatlantic adventure roused the enthusiasm and interest today of all Washington. Newspaper offices and press associations were bombarded with queries.

The Navy has its own Lieutenant Commander Richard W. Byrd waiting in New York for a propitious time to get away for Paris, but the daring of Lindbergh in essaying the journey alone, and in the face of uncertain weather, appealed to the imagination of service officers as it did to the man in the street.

All government ships in the path of Lindbergh's flight have been ordered to report his progress and render aid if the young flier should meet with misfortune. As in the Nungesser-Coli attempt, shipping board vessels in the Atlantic will report by radio direct to Washington any information they obtain.

The whole attitude of Washington could be summed up in the oft-heard expression: "I hope he makes it."

His Mother's Love
Flies With 'Lucky'
in Wild Flight

Detroit, May 20 (U.S.A.)—Captain Charles A. Lindbergh, 25-year-old "flying fool," has a mother's love and God-speed as he wings his way on the 3,000-mile non-stop transatlantic flight from New York to Paris.

Settled today of her son's hop-off, Mrs. Evangeline Lindbergh, chemistry teacher at Case Technical High School, said:

"My heart and soul is in his work, and I am praying that he succeeds."

at Lindbergh's flight have been ordered to report his progress and render aid if the young flier should meet with misfortune. As in the Nungesser-Coli attempt, shipping board vessels in the Atlantic will report by radio direct to Washington any information they obtain.

The whole attitude of Washington could be summed up in the oft-heard expression: "I hope he makes it."

Europe high rents and constant marine from London in today's Classified Ad, Classification 25.

LINDBERGH OVER MASS.

SIGHT OF FLIER
BIG SURPRISE
TO WOMAN
'HOW WATCHED
LINDBERGH IN
PARIS HOP'

Mrs. Hugo Bernstein of Halifax, on the South Shore, who saw Lindbergh's plane flying over that town, told the following story:

My goodness! I hadn't any idea when I stepped into the yard at the rear of my home this morning and saw that white airplane going like mad, that I was seeing one of our own American boys starting for France.

I was alone in the kitchen doing the housework. I heard this low hum, that sounded like a bird.

The big, white airplane came from the direction of Bridgewater and was going over toward Plymouth and the ocean, I thought.

I said to myself, when I saw the plane was white: "It certainly is too bad that isn't the French flier."

About fifteen minutes later I went to the telephone to talk to a friend. The telephone operator, whom I know, for down here we all know one another, asked me if I had seen anything of the American flier. Then I knew it was him I had seen.

"Columbia" to Quit Flight
if Lindbergh Gets Across

Rosevelt Field, N. Y., May 20 (U.S.A.)—The Bellanca monoplane Columbia will be withdrawn from the New York-Paris race if Captain Charles Lindbergh successfully completes the non-stop 3,000-mile flight which started today, an official of the Columbia Aircraft Corporation announced today.

"We wish Lindbergh all the luck in the world," he said, "and I will make the flight to Paris we will not attempt it. If he should fail the Columbia is ready to start."

A Drab Girlhood

"I hadn't much fun when a girl, most years for it!"
Ruth Snyder Tells
Are many girls like she was? This message from a death cell begins Monday in The American.

PLANE WING IN
SEA NOT FROM
PARIS SHIP

New London, Conn., May 20—The airplane wreckage found in the sea and towed here is not part of the lost Nungesser plane, it was with the French ship today. It had been in the water for weeks, it was old, precluding possibility of it being part of the French ship.

When the piece of wreckage was picked up there was an opinion that possibly the wing was from the "White Bird" plane of Nungesser and Coli, missing since their attempted flight from Paris. The wing was brought here and Captain J. G. Hambley, base commander of the coastguard, gave it an examination. The condition of the wing showed it must have been partly submerged in the water for months.

Lindbergh Plane Motor
Often Seems "Missing"

Washington, May 20 (A.P.)—Army Air Corps experts said today that Charles A. Lindbergh's plane was equipped with a motor that often gave him trouble. That it was "missing," they said, was caused, they said, by the character of the design, which sometimes allowed the explosion of one cylinder to snuff the sound of another.

MARKED MONEY TRAPS VETERAN MAIL CLERK

Timothy J. O'Connor, Worcester postal clerk, on the eve of a pension, and David J. Sullivan, Boston recruit, in the same service, were arrested today by postal inspectors on charges of theft from the mails. O'Connor, appointed a clerk 22 years ago, has been engaged in the railway mail department of the Boston, Springfield, New York and Albany, according to Chief Postal Inspector Park D. Quinn, had been long under suspicion for extensive mail thefts.

O'Connor said a decoy letter, containing marked money, was placed among mail handled yesterday by O'Connor and was found later at his Worcester home by Postal Inspectors Brella and Cronin after his mail run was ended.

Sullivan, a substitute clerk in the Back Bay station, was arrested on Stuart street by Inspector James E. A. Sullivan, who alleged he found a stolen letter in his pocket taken from the station a few minutes before.

The Worcester man was arrested in that city this afternoon.

Oshkosh Comes to Rescue of One Mill Town

Greenville, N. H., May 20.—Oshkosh, Wis., is the savior of this town with its 1,500 inhabitants. Hard times, which have been experienced here before, and which were looming ahead for the one industry, the Columbia Manufacturing Company, ended today.

An order for 1,000,000 yards of several cloth was received from an Oshkosh overall manufacturer. Extra shifts will be put on at the mill.

TWO ARE INJURED IN FRESH TAR ACCIDENT

Freshly laid tar caused an automobile accident in school street, Somerville, today, resulting in injuries to Mr. and Mrs. Alvin O. Vinal of Medford street, Somerville. Vinal, who is seventy-five years of age, lost control of the car when he was driving through the tar. Vinal and his wife, who is eighty-two years of age, crawled through a window.

FULLER TALKS WITH SACCO COUNSEL

Governor Fuller speaks a surprise today in his inquiry into the Sacco and Vanzetti case by conferring at his office in the State House with Judge Thomas F. McKeen, attorney for the pair who was one of counsel for the pair at the trial.

The Governor's action caused considerable speculation, especially at headquarters of the Sacco and Vanzetti Defense Committee. In the opinion of some his purpose was to act as Judge McKeen's point blank if he thought the men were treated fairly.

The Quincy man, judge of the Municipal Court there, was the original counsel for Nicola Sacco and Bartolomeo Vanzetti. When the case came to trial he acted as assistant in court to Attorney Fred H. Moore, who was brought from California to be chief defense counsel.

The Governor's investigation proceeded today with Lieutenant Governor, Allen, Secretary Joseph W. Donald, who is Governor Fuller's personal attorney, and Herman A. Macdonald, his secretary, sitting in conference with the Chief Executive, as they did yesterday.

A mysterious visit to the Supreme Court chamber, by Attorney William G. Thompson, present counsel for Sacco and Vanzetti, was another angle of the case that puzzled observers today. Thompson said the purpose of his visit was to see anything of his plans.

The Women's Consumer League of Los Angeles demanded the unconditional release of the two condemned men in a telegram to the Governor.

There were forty-five signers to a petition from the United States of North America, New York, requesting an impartial review of the case.

JAIL SENTENCE FOR SINCLAIR

Continued from First Page.

Sinclair's refusal to answer certain questions in the Senate Test Case investigation when he was summoned for the sixth time in March, 1924.

Immediately after sentence was pronounced, declaring that Sinclair's refusal to answer the questions had action in any way and constituted a mere "irregularity." He added that he had the right to appeal to the court to demonstrate by the evidence that the law did not "reflect politics" and did not "speak for senators," but "for the citizen before the law."

Justice Hix said the ruling of the Supreme Court in the Mal Daugherty case, holding that Congress had the power to summon witnesses, was binding upon all courts.

SOUSA CONCERTS WILL BE SHIFTED IF IT RAINS

In the event of rain, the mass concert by New England School bands and orchestras, scheduled to be conducted on Boston Common at 11:15 tomorrow morning by Lieutenant Commander John Philip Sousa, the leader will report to Mechanics Building and the orchestra to the Apollo.

—International Newsphoto

WILLS \$1,250,000 The late Lady Henry, who was a daughter of Leonard Lewisohn, American copper magnate, and who

willed \$1,250,000 for Harvard, Yale, Oxford and Cambridge scholarships.

London, May 20 (A.P.)—A large sum, said to be \$500,000, found about \$1,250,000, is understood by the Daily Sketch to have been bequeathed for the establishment of scholarships at Yale and Harvard and Oxford and Cambridge for Lady Henry, widow of Sir Charles Solomon Henry.

Lady Henry, eldest daughter of the late Leonard Lewisohn, copper magnate, was born in New York City, but had made her home in England since her marriage to Sir Charles in 1892.

It was an estimate given in promoting good understanding between the people of the United States and Great Britain, and her bequest was made in furtherance of this ideal. It provides for facilities in the American universities for British students and for facilities at Oxford and Cambridge for Americans.

Lady Henry, who died in London last week after an operation for cancer, had long been prominent in society and politics and gave much of her time to charitable movements.

TALBERT FOUND TO BE SHORT \$269,000

Continued from First Page.

Pelzer Manufacturing Company, and Lockwood Green Co. and associated companies, a claim for the share in the Thrift Fund of the wool company employees will be filed against the Talbert estate. The Lockwood controls all the above mentioned organizations.

It was in accounts of the Thrift Fund that the original \$34,900 shortage was first discovered, but shortly a total shortage of \$175,223.63 also had been found in accounts of the Cotton Research Co., the American Textile Machinery Co. and the New England Southern Mills and Pelzer Manufacturing Company.

The consolidated statement in part follows:

"Investigations have disclosed shortages in the following companies, for which claims will be filed against Mr. Talbert's estate:

"Cotton Research Company, a research corporation for investigating technical problems in the textile trade, in which Mr. Talbert was treasurer, \$23,294.69.

"American Textile Machinery Company, a corporation organized to develop foreign textile machinery business, which was liquidated in 1922 and of which Mr. Talbert was treasurer, \$7,290.11.

"New England Southern Mills and Pelzer Manufacturing Company, a research corporation for investigating technical problems in the textile trade, in which Mr. Talbert was assistant treasurer, \$1,127,576.94 and \$12,500, respectively; and prior to January 1, 1927, \$2,818.25 in New England Southern Mills and \$37,500 in Pelzer Manufacturing Company.

"The December 31, 1926, balance sheets of both companies were not affected by the shortages, which occurred prior to the year 1927 since they had been previously charged off the books."

ENTIRELY NEW RUM SQUAD
PICKED IN SOMERVILLE

A complete change in the personnel of the Somerville police rum squad was announced today by Chief Kendall, who declared it was due to an established policy, and was not in any way a reflection on the work of the force that has been operating for two and a half years under Sergeant William G. Kennedy. Chief Kendall praised the efficiency of Sergeant Kennedy's squad, which included Troopers Burns, Sherry and Lyons. The new squad was headed by Sergeant Charles J. Sherry, Troopers Baker, Donovan and O'Brien.

Looking for the right job at the right time, the new squad will be in search of rum for good men in search of real opportunities.

GREAT FLEET IS WELCOMED AT NEWPORT

Newport, R. I., May 20.—The most gorgeous, inspiring naval spectacle in the history of this blue naval base, was presented in view of cheering thousands ashore, today when the "defeated" Black fleet under Rear Admiral Charles F. Hughes, came to port for a glorious holiday coast.

At the "war game" played off the New England coast, the "defeated" fleet, "beaten every officer and soldier" as he gained his first view of the town.

On the shore, thousands of school children were ranged. Thousands of automobiles set up a raucous din of welcome. The fire bells and the church bells tolled. The whole city was ablaze with color as thousands of pennants and flags whipped gaily in the breeze.

The grim, majestic bulk of the flagship, Southard, rounded Davis Point and entered the harbor just at noon. Instantly the guns of Fort Adams boomed out a salute to the admiral, and a minute later the salute of the Seattle returned the salute.

Then the crowds ashore were thrilled when an airplane took off from the flagship carrier Langley and took swiftly to the air to join the other birds, who were circling about above the fleet.

Ruth Snyder's First Love

Judd Gray was the first and only one—too many, declares the condemned woman.

Ruth's own, true life story begins in next Monday's American.

6 Reasons Why Your FUR COAT Should Be KLAMAC CLEANSED Before STORING

BEFORE you have your fur coat cleaned anywhere inquire if the process involves use of naphtha or gasoline compounds. Such cleaning methods are likely to stain the fur and extract the natural oil, leaving the leather dry and brittle, thus inducing cracking and shedding later.

The KLAMAC CLEANING process has distinct advantages over ordinary methods.

These are:

1. Contains no benzine, gasoline, naphtha or their compounds.
2. Absolutely safe for even the most delicate furs.
3. Removes all dirt, dirt, grease, stains, moth eggs, etc.
4. Prolongs vitality of the fur.
5. Restores luster of the fur.
6. Preserves wearing quality, thus increasing "trade-in" value.

Send a postcard or phone CONGRESS 6731 and we will call for your coat.

POLICE LEGIONAIRES VOLUNTEER SERVICES

Members of the Boston Police Legion have volunteered to do police duty at the big third annual bazaar given by the Croupier-Police Legion, the advertising men's post of the American Legion, according to an announcement at the big "Pop" dinner conducted at the Hotel Bellevue.

Colonel Frank Knox, regional director of the Hearst papers in New England, addressed the members, as did Captain Swan, who pointed out while the post was in the bazaar, since the card is the big post and last program offered in Boston throughout the year.

One stock included Red Fox, White Fox, Pointed Fox, Blue Fox, and others. Greatly reduced prices on small Scarfs of Choke in velvet, blue, black, and others.

TWO MORE HELD IN STRIKE BATTLE

Worcester, May 19.—In a second battle with police and strikebreakers striking laborers at the new Horticultural building were dispersed shortly after they had taken and two were arrested. With the ten who were arrested in a riot at the building yesterday the men will be arrested in Municipal Court charged with issues.

According to police, Angelo Otty and Phillip Kane moved the building today and began to rearrange the strike-breaking laborers. An argument ensued and Policeman Dunn Sullivan arrested the pair. In yesterday's riot they were said to be strikers, and the building with a barrage of gas, tearing one policeman was to force his gun. A riot call brought him across and ten were arrested.

N. E. Steamship Man Dead
New York, May 19 (A.P.)—Philip Hummer, of New Haven, Ct., assistant foreman of the New England Steamship Company in that city, was found dead in the City of Taunton, which dived last morning. Death was thought due to heart failure.

To Lift Burden

MGR. PETERSON
Parishioners of St. Catherine's, Somerville, start drive to clear church mortgage as welcome to new pastor, Mgr. John B. Peterson, and in memory of the late Rev. J. J. O'Brien.

RAISING \$25,000 TO PAY CHURCH MORTGAGE

Parishioners of St. Catherine's Church, Somerville, are preparing actively to rid their magnificent property of the last considerable encumbrance, a debt, and a "mortgage collection" of \$25,000. The debt is to be paid by the people of the parish during the week beginning next Sunday, by a committee of well-known parish workers.

The late pastor, the Rev. James J. O'Brien, when death suddenly called him, had made ready for the emergency the large modern sanctuary and convent which the parish is so justly proud.

At a tribute to his memory, and as a token of encouraging welcome to his successor, the Right Rev. Mgr. John B. Peterson, the parishioners have organized a committee to canvass the parish for subscription to raise the debt.

The parish committee was headed by Rev. Charles E. Monahan as chairman, William F. Bonner, secretary, and Dr. David J. Cronin as treasurer.

MOTHER AND MAN IN BOY "DUMP MURDER" GUILTY
Springfield, May 19 (A.P.)—Albert Doe of Palmer, indicted for the murder of John B. Keller, Jr., four years ago, was found guilty in a jury trial today. The jury found the mother and man guilty of manslaughter in the death of the boy, who was found in a ditch near the railroad tracks.

TWO CONFESS KILLING IN DISPUTE OVER \$100
Bridgewater, Ct., May 19 (A.P.)—John Falbo, of this city, and Paul Artale, of Middletown, are under arrest in Westport on charges of murdering Salvatore Giannone, forty of this city, whose body was found behind a stone wall on May 2.

TRAIN KILLS MAN ON ATLANTIC AVENUE
An unidentified white man, was killed under the wheels of a Union Freight train in Atlantic avenue early today after colliding with a police ambulance. Every bone in the man's body was broken, police said.

TRIDUUM AT ST. PHILIP'S IN HONOR OF ST. RITA
The annual triduum in honor of St. Rita will open in St. Philip's Church, Hartford Avenue, Sunday evening, May 22, at eight o'clock and will close Tuesday evening at the same hour. The services each evening will consist of a sermon, benediction and elevation of the host, burning and distribution of roses with a pipe Tuba playing at the closing exercises of the triduum.

'KING BEN' HAD 50 FAVORITES, GIRL SAYS

St. Joseph, Mich., May 19 (A.P.)—Girl members of the House of David colony were taught that Benjamin Russell was "A Brother of Jesus" and that his will was supreme, according to testimony of Mrs. Dolly Smith Wheeler, a former member of the colony, at the State's dissection proceedings here.

Testimony regarding alleged impropriety of the colony head, Mrs. Wheeler declared the girls feared to read Russell's dissection, as the result of such teachings.

Those who learned the ill will of Russell were branded as "heretics" and were told to be "full of devil," according to the witness. On the other hand, Russell was called "King Ben," as he was known to colonists, Mrs. Wheeler said.

Girls in 13 have been placed in Russell's dissection, as the "outer circle" and were quartered in a house named "Jerusalem." Mrs. Wheeler testified, while those whom she lived in Russell's headquarters building, "Shiloh." About 59 girls lived at "Shiloh" while she was a member of the colony, the witness declared.

RUTH AND GRAY UNDER SANITARY TEST IN PRISON
Oswego, N. Y., May 19.—The group described as the "outer circle" of Mrs. Ruth Snyder and Henry David Gray of escaping the death sentence for the murder of their infant son, today will be examined for signs of insanity today by Dr. Raymond F. C. Smith, state commissioner of correction.

YOUTH DYING AFTER CRASH OF STOLEN CAR
For the second time in three days an alleged automobile thief has died himself in the danger zone of a hospital when the machine he is accused of stealing ran into a wall.

Two Auto Drivers Fined
Raymond G. Nye of Myrtle Lake, Minn., was fined \$25 in the Southern District Court as a result of operating an alleged automobile on the Boston street, Chelsea, which he had crashed into a wall after a collision, head-on, with another machine operated by John J. Danahy, of No. 188 Bunker Hill street, Chelsea.

Two Auto Drivers Fined
Raymond G. Nye of Myrtle Lake, Minn., was fined \$25 in the Southern District Court as a result of operating an alleged automobile on the Boston street, Chelsea, which he had crashed into a wall after a collision, head-on, with another machine operated by John J. Danahy, of No. 188 Bunker Hill street, Chelsea.

New Hotel for Portland
Portland, Me., May 19 (A.P.)—A 15-story modern apartment hotel on High street, adjoining the New England Hotel, involving an expenditure of \$1,000,000, will be started next March by a company in which Fiske Brothers of Portland will be principal stockholders.

Tries Suicide by Gas
William Reid, 45, of Chaney street, South End, attempted suicide by gas poisoning. He was found by his landlady, Mrs. Adams, forced the door open and found him in bed with one of his legs, connected with a gas bracket, in his mouth.

BETTY ALDEN'S COMMENT ON SOCIETY

Mrs. Dudley P. Ranney of Wellesley Farms Aboard Liner Rochambeau to Spend Summer on the Continent

TO AND FRO OVER THE OCEAN MOVE MANY MEMBERS of the famous Smart Set. Their travels to the mere work-a-day world of the stay-at-homes read as glitteringly alluring as a fairy tale. Latest to take ship and sail away to foreign parts is that charming young matron of the like-like voice and petite beauty, Mrs. Dudley P. Ranney of Wellesley Farms. She is out-bound today on the Rochambeau en route to France. Traveling in her party are her aunt and uncle and cousin, Mr. and Mrs. Arthur W. Wellington and Miss Evelyn Wellington of Chestnut street.

ON THE STEAMSHIP FRANCE THAT NOSES OUT FROM NEW York tomorrow go the Daniel De Menocals for a short Europe journey. By winter the De Menocals live in town, and of Summers they frequently may be found in Newport. Mrs. De Menocal is a sister of the handsome Mrs. Allan Forbes, whom she very closely resembles. Robert F. Herrick, Jr. is a passenger on the France, according to the lists, as are also the C. Ashley Hardys of Hereford street.

TO MISS NELLIE LOUISE THOMPSON'S INTIMATES ARE GOING cards for tea and music on the afternoon of Thursday next, at her Trinity Court Studio. This is an annual festivity of Miss Thompson and an occasion of much importance to the many young people she is training up in the way they should go artistically. Miss Thompson, herself a sculptress of note, also has an enviable facility in oil and watercolor and many of her young pupils are marching steadily along the pathway to fame in the arts.

DOZENS OF PRETTY GIRLS, FOR THE MOST PART SUB-debutante, will decorate effectively the Registry stage this afternoon, and evening, in the Dramatic Clubhouse. "Review of Dances" these little young coquettes, future belles and young set leaders each one include Miss Esther Drew, daughter of the Edward Higgins of Boston and Drew, who wears the tulip-like cap and gay muslin that bedeck the girls in the "Dutch Tulips" number.

THE UPPER STRATAS ARE VERY WELL REPRESENTED in the "Tulips" number. Miss Helen Cabot, tall and golden-haired daughter of Mr. and Mrs. Samuel Cabot of Jamaica Plain, is a "Tulip" Liberator. Miss Barbara Bremer, daughter of Dr. and Mrs. J. Louis Bremer, and Miss Charlotte Lyman, bright-eyed and vivacious, the small daughter of the Ronald T. Lyman. If ever a girl was marked for leadership in her chosen circle, the she. And how they all can dance! Like bits of thistle-down in the breeze.

MRS. RONALD T. LYMAN CAME HOME FROM EUROPE ON THE Homeric day before yesterday, just in time to see her "Harvard" luncheon at the Copley-Place this morning, and to see her young daughter perform at the Harvard of Dances. The family is now getting in the Spring at their country place in Waltham, and the handsome British mansion on the brow of the "Hill" is being readied for the Summer. Mrs. Lyman is much concerned with plans for the festive contingent that invades the town during "Commencement" when Harvard 1927 celebrates.

WHILE MISS BARBARA BREMER HAS BEEN PERFECTING HER steps for the Review of Dances, her mother, Mrs. J. Louis Bremer, has been trying her hand at match tennis play out at the Country Club courts along with many another maid and matron of the local Four Hundred. Some very interesting tennis, of the stripes as well as the doubles sort, is going on. And before a very friendly gallery, too, for it is mostly composed of the players themselves, during their off-hours. The Waterman twins, Miss Leghorne and Miss Priscilla; the Palmer girls, Mrs. Charles H. Blanchard, Mrs. "Quin" Shaw, Jr., and Miss Eleanor Horton, were there.

MOVE HOSPITAL PATIENTS AS FIRE THREATENS WARD Worcester, May 20 (A.P.)—Forty male patients in Salisbury ward No. 2 at the Worcester State Hospital were marched into another ward today under the lead of attendants when a slight fire was discovered in a toilet in the ward. The fire was caused by a patient smoking a lighted cigarette and a small hole around piping in the toilet. The flames in the second caused in a similar manner in the past two years. An alarm was sent in but attendants had the fire extinguished with hand chemicals and water when the firemen arrived.

INSPECT SITE OF NEW HOSPITAL SCHOOL The site of the new building at the Massachusetts Hospital School, Canton, where crippled children are treated by sunlight, hydrotherapy and other methods which have won international attention, was inspected today by the advisory board of the State Department of Public Welfare, including A. C. Ruskewsky, chairman, and Dr. Jeffrey H. Brinkley of Boston, who served on the board for 21 years. George Crompton, George H. McCrehan, Mrs. Ada Elliot Sheffield and Mrs. May T. H. Sherburne. The new building was made possible by an appropriation of \$45,000 by the Legislature.

HEARST TO BE HONORED BY UNIVERSITY

Atlanta, Ga., May 20—Invitations were issued today to the dinner to be given tomorrow evening at the Biltmore Hotel by President Thorne-Jones and the faculty of Oglethorpe University to William Randolph Hearst.

Mr. Hearst, owner of more than 30 daily newspapers and magazines in every part of the United States, is coming to Atlanta to receive the degree of Doctor of Laws from Oglethorpe University and to deliver the baccalaureate address at the commencement exercises Sunday.

Other honorary degrees to be conferred include that of Doctor of Science upon Warren K. Moorehead, professor of anthropology at Phillips Academy, Andover, Mass., for his life, that of doctor of pedagogy upon Layton B. Evans, head of the Augusta and Richmond County, Ga., school system, and E. A. Funder, Georgia High School superintendent, and that of doctor of literature upon Mrs. Rosella Mercer Montgomery, native Georgian, who has won some fame as a poet.

The distinguished recipients of honorary degrees will be guests at a reception on Oglethorpe University campus tomorrow afternoon to be given by the woman's board of the university.

Among the visitors to be drawn to Atlanta and to Oglethorpe by the ceremony of commencement is Arthur Brisbane, known as the most powerful man in the world whose column "Today" has more readers than probably any other syndicated newspaper feature.

Mr. Brisbane is expected to reach Atlanta this evening and will be a guest at the Hearst dinner at the Biltmore as well as the other functions in honor of the distinguished publisher. The commencement exercises will be conducted Sunday evening in the Biltmore Theatre.

POPS CONCERT PROGRAM AT SYMPHONY TONIGHT Alfredo Casella and the Pops Symphony Orchestra will present the following program in Symphony Hall tonight:

Alfred Casella—Tosca, Verdi; Suite in G major, Liszt; The Swan, Debussy; The Carnival of Venice, Strauss; The Nutcracker, Tchaikovsky; The Firebird, Stravinsky; The Rite of Spring, Stravinsky; The Firebird, Stravinsky; The Rite of Spring, Stravinsky; The Firebird, Stravinsky; The Rite of Spring, Stravinsky.

DRY LEAGUE TO RAISE \$600,000 TO BEAT WETS

Washington, May 20 (U.S.A.)—A formal declaration of war against any and all wet candidates, irrespective of party, was laid down here today by the governing body of the Anti-Saloon League, together with the announcement that arrangements had been completed to double the financial budget next year to accomplish its purpose.

A special campaign fund of \$600,000 will be collected at once, it was announced, and expended over the next two years, which will encompass the national elections of 1928.

BRAVES ARE IDLE AGAIN TODAY

Double-Header With Cardinals
Tomorrow Is Offering of
Local Management

Unless the weatherman changes his tactics, the Braves and those club that visit Boston in their swing about the circuit will forget how to play baseball. Though rain failed to fall, the heavy mist and down-hanging clouds caused a halt to today's hostilities.

The club has played but two games a week but hope to show the good players of the first day off tomorrow when they play the Cardinals a little better.

Manager H. O'Connell, new director of the club, though not from the club has ordered off in town to see that the way is changed.

His plan is to have the club to play a double header tomorrow and to have the club to play a double header tomorrow.

His plan is to have the club to play a double header tomorrow and to have the club to play a double header tomorrow.

KRAZY KAT

Silent as Tree Bark—By HERRIMAN

MEDBURY SAYS--

By JOHN P. MEDBURY.
THIS is the time of the year when millions of mosquitoes are in town plucking out their necks for the summer.
THE Department of Agriculture claims the insects will be an bug this season that will have to deal with more than a million mosquitoes.
PEOPLE in New Jersey are planning to wear boxing gloves to keep from fracturing their skulls.
ONE guy has refused to bow any more criminals. He says the mosquitoes will have to bring their own insecticide.
LAST year he caught over two thousand of these pests by holding a mouse trap in his hand.
THE mosquitoes used to spend the whole afternoon on a Adams Apple, drinking cider.
SOME of them would light on his nose and cheek and die of paint-er's colic.
EITHER that or they'd get caught between his cheeks.
HE said the dusts keep her mouth still long enough for a mosquito to get down.

THIS woman next door was two feet tall and got bitten on both of her legs.
BUT she was no beauty, all the mosquitoes got indignation.
SHE found a whole swarm of them in the pantry the other night looking for the last of the soda.
THEY'd wing her and then light on a drizzled toast.
ONE woman wasn't bothered at all. She'd had her face lifted and she'd at the gate with a name tag.
IT's fast the epidemic with the mosquitoes is to go out in the first yard every evening and stand at the gate with a name tag.

A WIFE'S MEDITATIONS--BY HELEN ROWLAND

'T'S Spring—and you are far away! And HOW can you be true? But when you're kissing another girl, Remember, it's Spring HERE, too!

Marriage will never be a brilliant success as long as most girls continue to marry "just for a thrill" and most men, "just for lustiness."

Next to a woman on a fishing trip, nothing is quite so painfully nerve-racking and under foot as a man around the house on cleaning day.

One way to test your husband's fidelity is to serve him those tempting little Spring onions every day, and observe carefully whether or not he eats them.

A bachelor's heart may have to be cranked up—but these Spring days a married man's heart is always self-starting.

Absence may make the heart grow fonder, but it is more apt to make the head grow cooler and the pulse grow steadier.

A San Francisco woman was fined fifty dollars a week for leaving her husband. But, at that, she may have found it worth the price to work out her suppressed desires all in one morning.

Woman's place may no longer be "in the home," but it is certainly not down town enjoying around her husband's office, those beautiful Spring afternoons.

A woman is always relieved, in the Spring, when her husband "breaks out" with nothing worse than a rash of red, insect-like, and jolly golf holes.

One of the worst forms of man's infidelity to women is to stop kissing a finger when she tells him to.

Artificial Teeth

Improve Your Appearance

Improve your appearance with natural looking teeth. In dental office only. The R. Parker System dentures are made of plastic and fitting artificial teeth.

The secret of a good complexion lies in having a youthful fresh-looking skin. Skin at night just before retiring. This is a fresh youthful appearance that is difficult to get over 30.

Use on either face, neck, hands or arms. It will give you a more youthful and healthy skin, after for years or old, at little cost and it's truly marvelous for the beautiful complexion.

Dr. V. A. Fitzgerald, Using E. R. PARKER SYSTEM
11 Avery St.; 881 Washington St.
Boston

DESPAIRED OF EVER HAVING GOOD COMPLEXION

Pimples relieved after trying well known remedy

Spokane, Wash., Jan. 31.—My skin had been very clear up to a while ago when blackheads and then pimples developed. They came rapidly and I was terribly annoyed. I used several suggested remedies without good results, and was despondent and just ready to give up hope of ever having a good complexion again when I saw one of your advertisements. At the same time, a friend recommended Rosin Soap and Ointment. We began to use them. After a few applications my trouble was relieved, and I now keep these products always on hand. They are so soothing and refreshing and I find the ointment so good for the scalp and for chapped hands.

(Signed) Miss Larnell de Felice, R. 1723 Third Avenue.

Ask your druggist for Rosin Soap and Ointment.

QUICK RELIEF FOR SORE, TIRED FEET

"After a long, hot day on my feet I run for Tiz," writes a city salesman. "No matter how my feet ache and burn, Tiz draws out all the pain and I'm as good as new."

Tiz is magical. Acts right off. Stops the pain of corns, blisters, calluses, sore spots.

A few cents buys a box of Tiz at any drug or department store. Have feet that never swell, never hurt, never get tired.

NATIONAL POLICIES OF THE HEARST NEWSPAPERS

1. An agreement of English-speaking peoples to preserve peace among themselves and promote the peace of the world.
2. A constitutional amendment to provide for the election of United States Senators in numbers proportionate to the population of each State, but no State to have less than two Senators. A reapportionment of Congressional representation immediate.

3. After every census, or in case of the failure of Congress to act, to make the apportionment automatic at the end of the first Congressional session, the proportion of population for each representative in each case to be that of the existing Congress.
4. A separate Department of the Army, of the Navy and of the Air Force, all united under a Secretary of National Defense.

5. Federal action to the limit of Federal Government powers to abolish illiteracy among the people of the United States, and the creation of a Secretary of Education.
6. Necessary measures to secure the election of Congress in November and its installation on the 1st of January following, and the inauguration of a President on the 1st of January immediately following his election in November.

"Backward, Backward"

PLEASE, Father Time, Make Us Boys Again—at Least for Tonight and Tomorrow

If there is a grown up male person in this town who can read of the big things scheduled for tonight and tomorrow and not wish he were a boy again there is something out of kilter with the gentleman's liver.

Member of the Boy Scouts, the drum major of a school-boy band, one of the cadets of the Massachusetts Nautical Training School, which would YOU want to be, Old Timer? ALL of them? Well, if that isn't just like YOU!

Tonight, in the East Newton Street Armory, 1150 Boy Scouts, going through such formations as pioneer bridge building, tumbling and wall scaling, construction of overnight shelters, fire department and bucket brigade, truck cart demonstration and, of course, original scout manoeuvres.

Tomorrow, on the Common, 3,000 boy and girl musicians, at the third annual concert of the New England Musical Association.

Lieutenant-Commander John Philip Sousa, no less, to conduct the massed band will be offered to the orchestra ensemble!

Schoolboy bands from points as remote as Auburn, Waterville and Caribou, Maine. Orchestras down from Dover, New Hampshire, and Burlington and Bellows Falls, Vermont. The two winning bands will go out to Council Bluffs, Iowa, next week to compete in a NATIONAL contest.

The third big event is more select in that it can be enjoyed by only the 116 cadets of the Nautical School, who sail tomorrow for Provincetown on the schooner Nantuxet, to leave on Monday for a foreign cruise which will take them as far as Corsica, last until September 28th and cover altogether about 10,000 miles.

There won't be room for grayheads on the Nantuxet, but if you don't just hanker to see the Scouts tonight, and hear the bands tomorrow, if you say you "haven't time for such nonsense," you're a cantankerous and embittered old bear and as sour as a crab. How did you get that way?

Our Shoes

Before We Offer Them to the Rest of the Country Let's Be Certain They Are Good Enough for Us

It may be the time is not far distant when no New England-made shoe will be offered to the rest of the country before it has received the approval of the home folk.

President Alfred W. Donovan of the New England Shoe and Leather Association would have the New England manufacturer use this home market as a laboratory in which to test the acceptability of his goods.

The President of the New England Council approves the recommendation.

"When you know your ways are right for the NEW ENGLAND market," Mr. Donovan tells the manufacturers, "push them as hard as you can in the OTHER markets of the country."

Mr. Lawrence would bring together a representative group of MANUFACTURERS and a representative group of DISTRIBUTORS of shoes, in order to improve the trade relations of the industry with its New England market. HE believes a joint study of "customers" who make the shoe and producers will "serve the interests of the community."

The Donovan suggestion and the Lawrence endorsement happen at a time when one of New York's up-State cities is completing a fund of \$500,000, with which to bring in "more shoe factories and other industries."

Here appears to be a golden opportunity for the Research Committee of the Council to accomplish another good work for New England. The committee, President Lawrence says, awaits the pleasure of the Shoe and Leather Association.

Why Kill Needlessly?

Safety for Coal Miners Is Easily Increased

In ten years more than 25,000 American coal miners have been killed by preventable mine explosions—a mortality rate four times that of British coal mines.

A large percentage of these recurring tragedies is caused by the particles of coal held in suspension in the air and intensely explosive.

Mine chambers thoroughly sprayed with rock dust, an inexpensive process, are immune. Wherever this precaution has been maintained, the death toll has fallen abruptly. In two recent explosions in Pennsylvania, which the first reports hinted at great loss of life, the rock dust cure worked so well that only a few deaths resulted among more than 700 persons jeopardized.

Only a few bituminous mines have yet introduced this safety process. It should be required in all. Why kill coal miners needlessly?

Servants of Science--

They Are Many, and Courageous

In England an important experiment in vivisection was necessary, but could not be performed under anaesthetics. Young J. B. S. Haldane, distinguished physiologist, nephew of Lord Haldane, son of Professor John Scott Haldane, of Oxford, well-known here, said, "You cannot use a dog. The knowledge to be gained is important. Use ME." They did so, producing artificial acidosis in his blood, then using it to make experiments.

That is the real scientific spirit, but it is not new. His father showed an artery, after breathing carbonic acid gas, to show students the effect on the blood. And the late Dr. Brown-Séquard broke one of his finger bones in a small vine, then calmly lectured to his students on the knitting of the bone as he put on splints.
